NICK HORAN  
DISTANCE SERIES

Distance is a series of limited edition fine art photographs. Each work captures a flicker in time, a fleeting moment – each offers both a sense of calm and balance.

We view the perfect and eerie calm of a crisp winter beach scene, its familiar yet far away location evokes a sought-after sense of home. The truest of tones are offset by its exotic luna perfection – not a building is in sight, not a sand out of place. Nature is untouched – one only needs to drink it in. One can hear the soft movement; the beauty is almost tactile.

This series is the result of a desire to encourage individuals to reconnect with peaceful spaces and evocative moments.

Nick Horan's thirst for the chase of calm came about as a result of his hectic nomadic lifestyle for his work as an automotive clay modeller. The Germany and Australian based Photographer and Industrial Designer craved a sense of peace in his down-time, and this peace came about through travel, exploration and photography.

Nick's Distance series of images tells a cohesive story of moments in time that open up the mind – uplifting, dream-provoking, nature in its most compelling and comforting form.

NOTES | Series available in two sizes. Limited editions of 25. Museum-grade framing in either natural wood, stained charcoal, black or white. Dry mount framing with white border. Authenticity certificate with artist signature included. Additional options available.
