Natural Aluminium
Brass, Blackened Brass

DIMENSIONS:

25-30H x 30Dia mm (Varies Slightly)

WEIGHT:

Aluminium Approx 0.005 kg
Brass Approx 0.055 kg

LEAD TIME:

6-8 weeks

INSTALLATION:

1no. M5 Screw
Drill a 5mm clearance hole, cut into desired
length and install using the M5 snap off
screw included in the package

CARE INSTRUCTIONS:

The metals used for our range oxidize with age and environment, both of which contribute to the evolution of a natural patina. Avoid harsh cleaning solvents and abrasives. Each object is handmade or hand cast in small batches, so slight variations will occur from one individual piece to another. Production marks may include slight pour ripples or surface pitting, which imprint every item with a unique character and which we welcome you to embrace.
