

## CARST WALL SCONCE

Carved + Cast = CARST.

The CARST light is made through a unique process where a hand-carved block is used to create a cast in solid aluminum.

After the raw cast is formed, the edges are hand polished to produce a contrast between the textured body and the mirror polished edges.

A powerful LED light source emits a soft, diffused glow, reflecting off the wall to create a warm, ambient effect. The CARST sconce blends functionality with a subtle, sculptural presence.

## SPECIFICATIONS

WARRANTY	12 Months	LIGHT SOURCE	24V warm white (3000K) LED
MOUNTING	Ceiling mount	VOLTAGE	24V
WEIGHT	2.6 KG	POWER	8W
ENVIRONMENT	Indoor	SUPPLY INCLUDED	Yes -240V (AUS/NZ) / 120V(US) to 24V
MATERIALS	Solid, cast Aluminium		

## FINISH OPTIONS

CAST
