

V.BROKKR

BRAID HOOK

BRAID HOOK

MATERIALS:

Solid Bronze

FINISHES:

Aged, Brushed or Blackened

DIMENSIONS:

90W x 95H x 45D mm

WEIGHT:

Approx 0.4 kg

LEAD TIME:

6-8 weeks

INSTALLATION:

1 no. M6 Screw

Drill a 6mm clearance hole, cut into desired length and install using the M6 snap off screw included in the package.

Suitable for masonry wall applications only.

CARE INSTRUCTIONS:

The metals used for our range oxidize with age and environment, both of which contribute to the evolution of a natural patina. Avoid harsh cleaning solvents and abrasives. Each object is handmade or hand cast in small batches, so slight variations will occur from one individual piece to another. Production marks may include slight pour ripples or surface pitting, which imprint every item with a unique character and which we welcome you to embrace.
