HEAVY HAND SCONCE | PEARLED

Materials

Brass, Freshwater Pearls

Finishes

Mid Bronze, Dark Bronze

Pearls Array

3, 4, 5, 6 Please note: Pearl arrays may vary from pictured

Technical

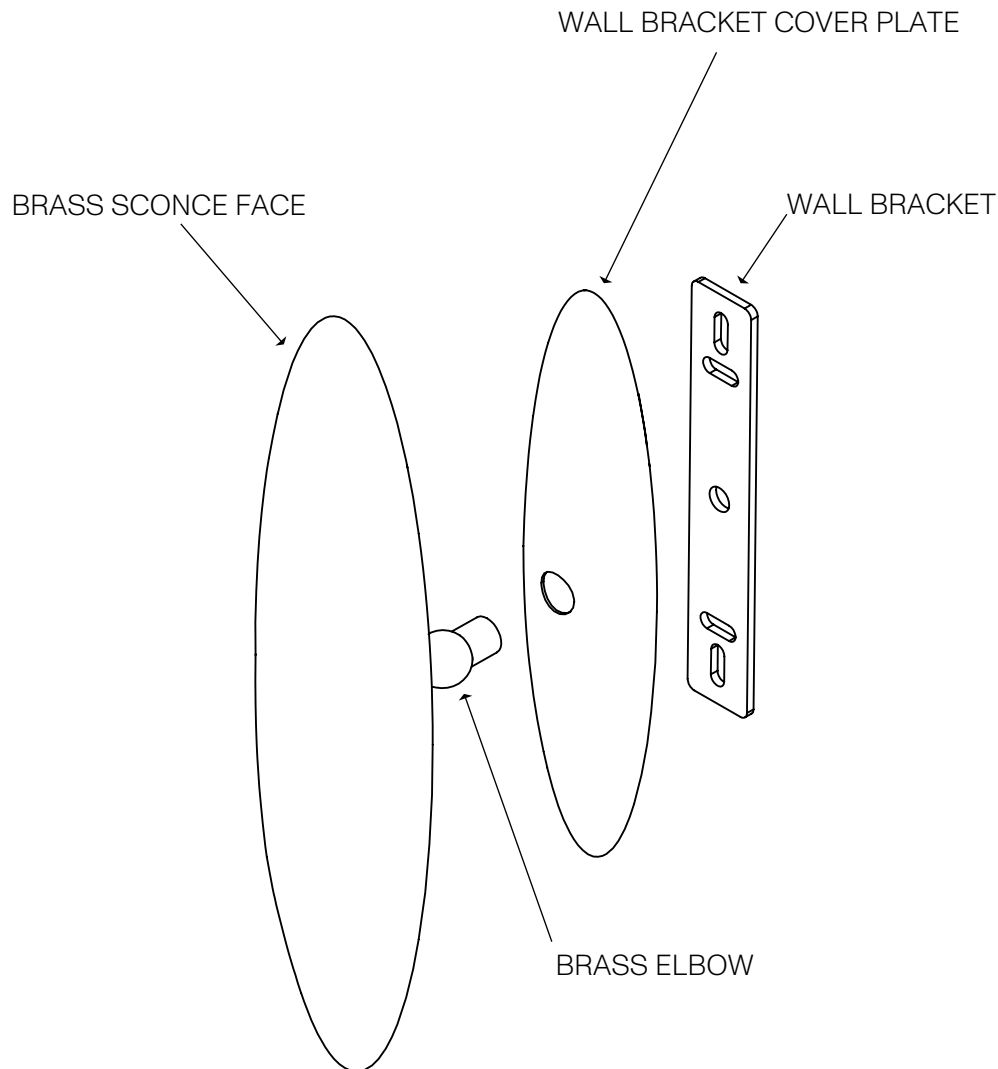

AU | EU | UK

Lamp Specs: 2700K, 24V DC, 8W, IP20, 900 Lumens

Dimming: Phase Dimmable PSU (Dali + 0-10v available on request)

HEAVY HAND SCONCE | PLAIN + PEARLED

Installation Guide

ALWAYS WEAR GLOVES WHEN HANDLING SCONCE TO AVOID DAMAGING THE DELICATE SURFACE.

This fixture is 24V DC 8W. A Load Correction Device (LCD) may need to be placed in the circuit to ensuring smooth and effective dimming.

INSTALL INSTRUCTIONS

Undo the screw on Brass Elbow. Remove and set aside the Brass Sconce Face on a clean and soft surface ensuring not to misplace the tensioning washer and screw.

Unscrew the elbow swivel from the wall plate and remove the Wall Bracket Cover Plate.

Junction power from Brass Sconce Face to supplied PSU (24V DC)

Attach Wall Bracket to the wall ensuring it's plumb and level. The power feed is through the centre. Installer is responsible for selecting appropriate fixings for wall substrate.

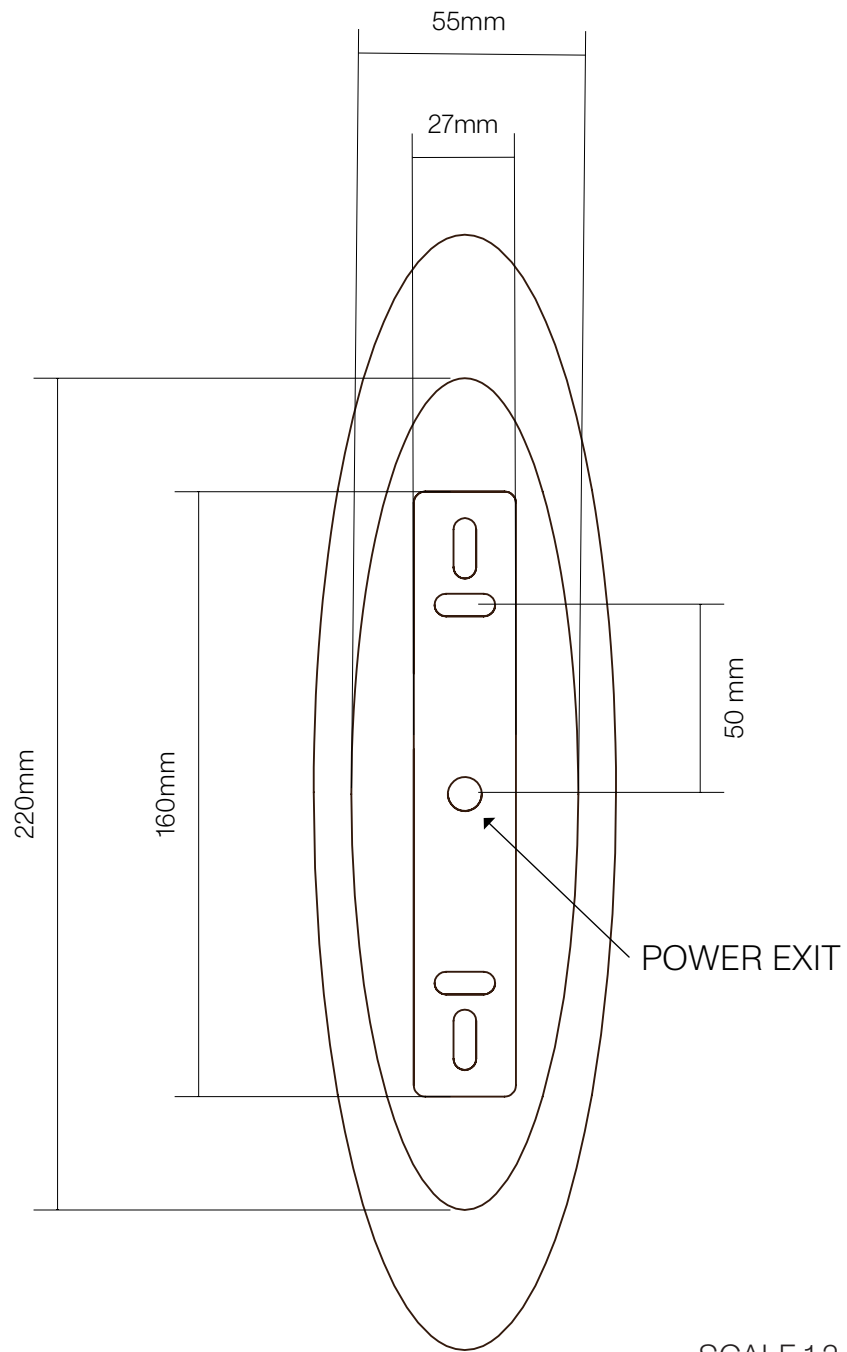

Replace the Wall Bracket Cover Plate ensuring it's making good magnetic contact with the wall plate and sitting evenly against the wall.

Reattach the Brass Elbow ensuring it's screwed in tightly and the middle face of it is plumb and vertically oriented. Adjustments can be made by turning the fixing nut on Wall Bracket.

Reattach the Brass Sconce Face with the Brass Elbow by carefully feeding the cable through Brass Elbow and reattaching the brass screw and tensioning washer.

Check to see that the fixture is illuminating and dimming correctly.

Install complete.

SCALE 1:2

TERMS AND CONDITIONS

Nicole Lawrence Studio accepts no responsibility or liability for any damage incurred during installation. This includes, but is not limited to, surface scratches, electrical faults, or damage to walls, fixtures, or surrounding structures.

All products must be inspected prior to installation. Any perceived manufacturing faults, defects, or discrepancies must be identified and reported in writing to Nicole Lawrence Studio before installation takes place. Installation of the product constitutes acceptance of its condition.

Nicole Lawrence Studio will not be liable for any costs associated with the removal, reinstallation, or rectification of products that have been installed prior to reporting a fault.

Installation must be carried out by a suitably qualified professional (e.g. licensed electrician where applicable). Failure to do so voids any applicable warranties or claims.
