PRACTICE

Nicole Lawrence Studio exists as an exploration in the materiality of metalwork. Drawing on a history of jewelery, industrial and lighting design Nicole's practice has been a compelling progression across furniture and lighting, with each new design informing the next.

Driven by a love for artisanal practices and personal experimentation, NLS continually pushes the properties of metal through the marriage of traditional craftsmanship and new technologies.

PRODUCT

Nicole's practices spans across her in-house furniture and lighting range to custom and commission pieces.

Finding a companion in the graphic form, Nicole's meticulous manipulation of metal translates rigidity into fluidity - shaping metal into pieces that beckon interaction. The interplay of solidity and motion is central to her creations, inviting viewers to ponder the equilibrium between strength & delicacy.

PEOPLE

Drawing on invaluable knowledge and guidance from local technicians NLS pieces are not bound by metal alone. Through these relationships comes opportunities for customisation and constant product development.

Fostering ongoing partnerships with fellow designers and peers, this collaborative work with her immediate and global community is an invaluable aspect to the studio - something that allows Nicole to evolve and absorb all it has to offer.

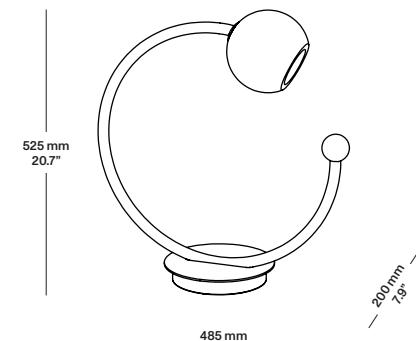

ORO LAMP

The Oro Lamp series is a result of Lawrence's process-led design practice finding compositional inspiration from the iconic Ouroboros snake symbol. This lamp intends to marry form and function. Offering a delicate form to compliment the graphic shapes. As with all NLS pieces, this lamp is made entirely in Melbourne by Nicole and in collaboration with artisanal glass blowers to create striking hand-blown glass shades designed to cast a warm and calming light.

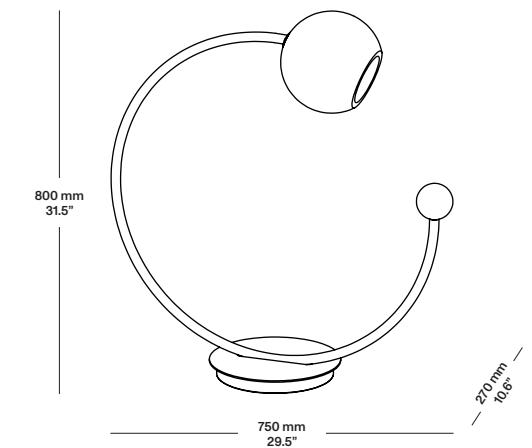

ORO TABLE LAMP / SMALL

Materials	hand blown glass, steel, matte 2pac finish, linen flex, warm white led e27 2700k w/in built dimmer
